Ama-chewer is published monthly by and for the I.R.C. and all Amateurs in this area. Non-members may subscribe for \$2.50 per year. (10 Issues)

Publication is on the 3rd Friday of the month, with all material and ads due by the first Friday. Ham-ads are free to members and subscribers. Others may use this service for 50 cents. Keep it down to a 5 line limit.

Ama-chewer welcomes information on coming events of other clubs in the area for publication in Ama-chewer in the program section.

Program Preview

The annual Swap and Shop and Monumental Auction was held as usual on the second Friday of May. There seems to be fewer and fewer builders around but still some. IRC made 4.25 in commission and Louie Lithcome K9EAT did the auctioneering with an assist by Bob Osterhaus W0PSE. The 10 cent items went OK but the \$1.00 and up stuff was a different story

On June 12 Cros Bartlett W9MC gave us a code test from some tapes he had prepared. There were enough finishers to let IRC hold her head up with Bill Lueth carrying off 1st place at 20 wpm. Several more would have passed a test except for punctuation marks. Cros presented the Club with the 3 tapes he had made, with copy all typed out. Perhaps we can use these next fall in a code class for the Extra. Many thanks Cros for your work.

After Club last Friday Prent WN9ECD had a field day all by his self on the Mission rig set up on the Novice band. He says "75 watts sure does make

THE PRESIDENTS FREQUENCY

The first half of 1970 has been good for the IRC with some good programs and increasing attendance. Also, our membership is up after the big mailing of the March issue of Ama Chewer. New members in 1970 include Mel Peterson WN9ZKS, Brent Rector WN9ECD, Ben Gaither WA9VCA, M. B. Flanigan WA9PLG, Fred Campbell K9CF7, Wm. R. Vivrett WN9DEW, Jane Heaton WN0AWL, Ted Greiner K9CQW and Ed Cronk W9ATV. A lot of old timers have renewed membership and are attending meetings. These are W9JYP, W0SWM, W0EIV, W0JWA, W0KAS, Bob Hicham, W9GAR, W9ZRK, K9YKH, W9YV, K9LEH, W0ASM, W9KJF, W9CGP, K9CBY, WA9BIO, K9AOM, WA0VPU, W9APG, W0UEM, K9JSF, exW9CUD and W0AOX. That's 23 calls added to our membership list and we are sure glad to see it getting back up there where it used to be. It is now at 67 and we hope to go over 100. We will not be meeting during July and August but we will be looking for all of you at the Fall kick-off September 11th. In between time we will be lining up interesting programs for the rest of the year. If you collected slides of your vacation experiences bring them to the September 11 meeting. Another issue of Amachever will be out just before that meeting to remind you.

73,

Pon. W0JVF

*** *** *** *** ***

Ed Cronk W9ATV is in England for a few days on business, but doesn't expect to have time to visit

The screening of a film by the Indianapolis Water Company was seen by YLs as well as the QMs. At another meeting a new technique in in adjusting watches was demonstrated, using an "Electronic Watch Timer. The ticks were printed on a moving tape and if the column leaned to the left it was going too slow. If they leaned to the right it was going too fast. A watch could be set on the nose while you waited! I can remember when my uncle, a Railroader, would have to leave his watch at the jewelers for several days to get it set to pass the regular RR inspection. Henry Armstead, a local watchmaker, put on the demo. at the request of Arnold Dickmier.

A warning was put out to clean up the Ham Shack because more "Visitations" would be made during the coming week. Joe Brand W9BNS was busy with advertising QSLs made at his print shop.

A code class was being planned and Bob Flanders, W9CKP was on the air with code practice from his station on Station Street. (Bob, what ever happened to that carved wooden head that used to sit on the HQ129x?) It was noted that the RI was in town to check on some local bootleggers. There was a real rash of that disease in the thirties with the Bootleggers using tube numbers for calls. They even had a list published listing names and tube calls. Fortunately The RI latched on to one of the lists and that was the end of that. Geo Wood was listed as the newest call in town. W9CZO.

FLASH Jerry Lucas W9APJ, now W9BS, announced the arrival of an 8 lb, 2 oz second harmonic, later to be known as W 9 or Gary. The harmonic is now a senior at Purdue. Harry Butler W9OVF, now W9 announced he was married and gave his new QTH. It was suggested that we have a club calling frequency so the local club members could get traffic around town (160m).

Bob Caskey W9DNQ

COVER STORY

This months cover carries the photo of Bob Osterhaus' Rig W9PSE. Bob was licensed in 1950 and now operates a Drake TP4 10 - 80m Transceiver with an RV4 remote VFO. The receiver is an HQ129x with a SS3 Slicer. He also has 6 82m converters. A 6m FM Motorola base and mobile equipment is used for local contacts. You can count eleven antennas at Bobs QTH! A TH3 Hi-Gain tri band beam is on a tower. 80 & 40 are covered with dipoles and a ground plane is used for 6FM.

Bob graduated from Purdue PSSE in 1954, He went to Ft. Monmouth Signal School and to Radar School there. He now holds a Professional Engineers Certificate from the State of Indiana. Another interest included electronic Organ and experimenting with integrated circuits. You will find Bob normally on 10 or 40 SSB.

He operates, with his father the Welding Equipment and Supply Co., supplying Welding and Spot-

Welding equipment to the Trade in this area.
W9PSE has been a long and willing supporter to
the Club, serving as Secretary in 1959 and as
Vice President in 1960.

SPLATTER

Bob Flanders W9CKP, mentioned earlier in 20 Years
Ago, received a quarter page write up in the
Sunday Star May 10th acclaiming him as Indiana-
polis' Bowling King with an average of 204-27.
Bob is Chief Engineer at WFBM.

Jerry Bramblett W9POF visited ARRL headquarters
on a vacation trip several weeks ago and got the
usual Red Carpet treatment. He was impressed with
the building and organization. Jerry recommends
the visit to all of us who may be in that area
on our vacations this summer. Many of you will
remember Marsh Lincoln's description of his visit
there several years ago, which was supplemented
with his slides, to give us a vivid description
of the set up there.

The Club welcomed two new members at last Fri.
Busihess Meeting.

Brett Rector WN0ECD
Mel Peterson WN0CXS

Mel's father is ol' Hank Peterson
W9 ZRK long time club member
We're very happy to have you two boys as members
of IRC. The President presented them with their
IRC Certificates and Cards.

*** *** *** *** ***

Incidentally, somebody said the addition of these
two Highschoolers to our membership now brings
the average age of the IRC membership to below
fifty! I thought I was feeling younger.

Antenna Party

The Antennas at the School for the Blind took a
beating last winter. Chief Engineer Bob Caskey,
with Bob Osterhaus W0PSE and Ron Williams W0JVF
after clearing the roof of leaves drained off
about 6" of water and then started the work of
putting the dipoles back in place. Rain caused
a QRT but every thing was finished by the next
week end when the six meter ground plane went up.

Chief Engineer Bill Lueth W9AI was assisted by
Paul Beckerich W9SUN, Bill Hickam and Ron (again)
at the Missions Building, to repair and raise the
Quad back to where it should be. We hear Ron
carried some of the tar from the roof home on his
shoes and tracked it into the home QTH!
